- 3-inch to 63-inch diameters
- 5V, 8V, C, and D profiles

Key applications

- Centrifugal pumps
- Rotary pumps
- Pump skids
- Pumpjacks
- Oil jacks
- Mud pumps

Dodge Passport and QD bushings

Dodge Passport is your one-stop shop for selection, design, and engineering. Design your drive in seconds at dodgepassport.dodgeindustrial.com

Dodge QD bushing systems provide easy, damage-free installation and removal of components from your application's shafting. Dodge QD bushings run concentric, meaning no shaft wobble and minimal shaft wear, extending the life of connected components.
